
Momentum - Pokerdeck

Artisan Tarot: Momentum Playing Cards

This **Momentum** poker deck is designed by Krisztin Kondor and is inspired by movement captured in a moment in time. It features a back design which suggests movement, custom suits, and intricately drawn court cards that capture the essence of the deck.

As you explore the court cards, note the subtle variations between the characters on the top and bottom. This serves as a reminder that even within a single moment, there is constant change.

This first edition is limited to 1000 decks. Each deck is individually numbered on the seals.
