
Chung - Pokerdeck

"Chung", derived from the Red Dragon in Mahjong, meaning the Middle. It's the same tattoo design inked on FISM European Champion of Card Magic-Miika Pelkonen from Finland.

The card back is inspired by the Jerry's Nugget design. The simplicity of the Chinese character and its red and white color scheme makes it perfect for sleights and card flourishing. In between magic and cardistry, the **Chung Playing Cards** have taken the middle road.

As general features we have:
