## **Ace Fulton's Casino: Fools Gold - Pokerdeck**

Finally - an ALL GOLD Ace Fulton designed for maximum daily use. Printed by USPCC and featuring the original small pips designed by Ace himself.

Also, a little birdie told me these are marked-as the original Ace FULTONS are. With the return of the classic small Fulton pips and altered suits, Ace has something up his sleeve for sure.

This is the best Ace has looked in a long while.

These cards were produced in limited quantities.
