
Glace (Green) by Bacon Playing Card Company - Pokerdeck

Bacon has launched the third generation of its **Glace Playing Card** series, featuring a new matcha green version.

The card design follows the consistent style of the series, with unconventional arrangement of the numerical cards and unique cartoon ice cream characters on the court cards, adding a playful and adorable touch to the entire deck. The four suits are presented in different color combinations, representing various flavors of ice cream that have been featured in the series.

These cards are manufactured by Taiwan playing card company using BPCC's custom Air X-G Finish in German card stock, offering a balanced and smooth feel.

Each deck comes with a customized green seal and is limited to 1000 decks, never to be reprinted.
