
FOOLAROID - Lovestory Edition by Mellow

FOOLAROID - Lovestory Edition by Mellow

"These transformations just look beautiful!"

- **Penn & Teller**

"This is what real magic should look and feel like!"

- **VANISH Magic Magazine**

Winner "Creative Magicians Contest" - Canadian Association of Magicians & Murphy's Magic Supplies, Inc.

This is the most visual transformation effect with photos you have ever seen! Mellow created this brand-new method for his FISM Act about Polaroids. He performed it on *Penn & Teller: Fool Us* and hit a million views on social media. This is more than a classic color change - it is a lovely piece of visual storytelling!

With the two handmade gimmicks, you're able to make a person disappear visibly from a photograph in slow motion and let them immediately reappear in a second one. It looks like a camera trick, but it isn't! Super easy to learn, no sleight of hand and a reset in just a second.

Two levels of amazement for your audience:

1. The magical effect when the person visibly disappears
2. The emotional effect when both people are united in one photo

You'll receive:

- Special handmade photographs
- Gimmicks for additional preparation
- Access to the Mellow Academy with video tutorials

Perfect for:

- Social media, online-shows & Zoom meetings
- Close-up face-to-face situations
- Stand up and stage magic in front of a camera
