
Therian (Metal) - Pokerdeck

Unleash your inner beast with **Therian Playing Cards!**

Featuring unique and spectacular illustrations by the European artist Pavel Popov, **Therian Playing Cards** are more than just another deck. These beautifully designed and produced playing cards are a dark and mythological art journey. Every single card showcases a unique shape shifting journey from man to mystical beast.

For those who like a colder, darker and edgy design, we have also created a premium metal designed deck. The deck includes premium metal exploding joker, updated card back and new metal seal with the Therian logo on it.
