## **LOVE BANDANA V2 by Lee Alex**

Following the success of the original "Love Bandana" on social media platforms, we now introduce a bolder, brighter and refined design.

### **"THE LOVE BANDANA" Version 2.0 by LEE ALEX**

Now with even MORE love! Scented with sweet cardamom essence\*

New BOLD design with minimalistic border & regular heart pattern

Effect:

A black bandana with a vivid red heart pattern and matching border is shown on both sides.

The performer shakes the bandana and the hearts fly off into the air.

The bandana is shown blank on both sides, save the red border.

The magician takes a handful of heart shaped confetti and throws these over the bandana. Alternatively the bandana can be swept in the fallen confetti hearts.

Once again the heart pattern appears on the bandana and this can be shown on both sides as it was in the beginning.

The subtle addition of the bandana's red border makes the flash transformation almost undetectable even at close quarters.

- Suitable for the largest stage and visual enough for street performances, Zoom shows, parlor shows etc.
- Complete with hand-finished satin bandana (approximately 24 x 24 inches, 60 x 60 cm) and a supply of hand cut heart shaped confetti (enough for many performances).
- Easy set up and ready to perform any time during your show.

\*Elements of the "Love Bandana Version 2.0" are infused with sensual sweet cardamom essence.
