
Office by Leo Smetsers

From the creative mind of Leo Smetsers comes **OFFICE**, a classic stand up effect scaled down and modernised. The Pom Pom stick has been a favourite with stand up magicians for many years.

The effect is entertaining and baffling, unfortunately the prop now looks extremely dated. Leo has created what he calls his office. A crazy looking contraption defies logic. It's fun and magical.

OFFICE is a limited release as Leo painstakingly makes each and every unit by hand. Order your **Office** today before they sell out!
