
HCC Coin (HALF DOLLAR SIZE) Set by N2G

Put two coins in your hand and take out one at a time, but there are always two coins in your hand. Then they disappeared and are found in your pocket or purse.

This is hopping half, a classic coin magic routine. I'm honored to pay tribute to this classic effect with the version of ancient Chinese coins. This is **HCC**.

HCC contains a full set of special prop coins and two ordinary coins, which are convenient to use at the end of your routine. It also allows you to perform many more magic effects, such as sun and moon.

The online instructions include detailed teaching of the complete routine .

With the high-quality coin workmanship as always, **HCC** is your best choice for a hopping coin set!
