
SUPER COIN 2.0 by Mago Flash -Trick

This new gimmick allows you to appear many coins from your cell phone.

The trick is very accurate.

It is operated manually, that is, they fall at the will of the magician. It can be connected to any cell phone and is easy to splice. The load capacity is 6 half dollar coins and the mobile application is free to download for Android.

Note: Original app free for Android, iPhone app available for purchase through the app store. Coin cascade function is only for Android.
