
Subtle Card Creations Vol 9 by Nick Trost - Buch

Nick Trost's Subtle Card Creations series of easy-to-do card effects comes to completion with **Volume 9**.

As in the other volumes in the series these routines rely on subtle moves and principles rather than difficult sleight of hand. Once again there are over 100 tricks, this time collected in 11 chapters covering gambling tricks, puzzlers, divinations, gilbreath tricks, cards and dice, tricks with 2 decks, ESP tricks and more.
