"A lot of billet routines. Fun!And influenced by Chan Canasta! Nice."

- Lee Asher

"I greatly enjoyed John Leung's Mind Business. All methods are practical, sound

and clearly well-rounded, while the routines provided leave enough room to make them your own. No fluff, no hyperbole, just solid, real-world material.

Recommended!"

- Timothy Krass

"Business is a great book for any magician and mentalist. I have been adding a lot of mentalism to my shows and one of my biggest issues is trying to find multiple versions of various effects so that I can always perform what people want to see no matter where I am. This book is filled with classic magic effects but with new and clever methods that you can use anywhere from the street or a restaurant to a formal show. The methods are clear and direct so that you can focus on your performance and interacting with your audience. I enjoyed this book tremendously and can't wait to use some of the material."

- Mahdi Gilbert

"Wow, entertaining routines from an outstanding talented mentalist the methods are clever and practical highly recommended!"
