
Twisters by OPC - Pokerdeck

It is time to introduce you to **Twisters!** The newest line in the OPC brand! This is a deck I have wanted to make for so long and it's finally here! This deck sports metallic brown ink with some salt and a yellow border! I love that we were able to take a classy back color like brown and still make it fun and flashy! As always we have our slightly customized courts and our clear packaging!

This deck is printed with USPCC on their premium crushed stock! With only 2500 decks made, you will want to get them while they are fresh!
