
RING SWING THING by Sirius Magic s

The Perfect EDC.

A wearable piece of visual magic in black and stainless steel, with a 4-stage routine.

At the end the spectator, somehow, even does the magic themselves!

An ideal, visual, non-card opener.

"Sirus' Ring Swing is a super commercial adaptation of the classic ring on chain effect, taking the classic methodology and building a full routine, with multiple phases, clever convincers, and an engaging sequence. Sirus' expert routining takes a simple curio and elevates it into a real worker."

Phil Smith - Miscellaneous Miracles and designer of the DMC Elites

"The best thing I saw at Blackpool 2023"

Kev Mark - Creator of Bullseye

"Ring Swing is sooooo good, Really really smart to continue the phases and use the chain in place of rubber bands, great idea."
