
God Erlang V1 by KING STAR - Pokerdeck

Erlang God is a very famous mythical figure in ancient China. **Erlang God V1** uses ink painting style to show the handsome and aloof Erlang God vividly. The card box uses high-quality double-copper paper, the card box is covered with laser, and the card box is fully gilded.

The deck uses the double-sided transparent laser technology, which is independently developed and applied to the cards for the first time. It is different from bronzing and laminating. This technology makes the cards have a higher laser gloss, and at the same time, it reduces the impact on hand feeling to a greater extent.

- Printed by KSPC
- Using 280G Japanese laminated black core paper
- Limited edition, never reprinting.
