
Oxalis V3 Purple Holo Special Edition - Pokerdeck

Oxalis "Purple Holo" designed by Vincent (Oxalis Cards) is the third edition limited edition standard deck. No numbered seal was used for this edition but only 600 copies were produced using the **Oxalis Purple V3** deck's overproduction. Obviously, the change of foils during production makes the process quite expensive but at the same time the holographic foil applied on the card stock premium pearlescent purple makes this edition extremely special.
