
Dr. Schwartz's Pencil-Tration by Martin Schwartz (Deck color may vary)

From the inventive mind of Dr. Marty Schwartz comes an incredible penetration effect - **PENCIL-TRATION**.

The effect is straightforward. A spectator freely selects a card and you place it back into the deck. You show a pencil, maybe examined, and explain you are looking for a soft spot in the deck. You now smash the pencil against the deck and the pencil vanishes as it penetrates the cards.

The selected card falls to the table with the pencil impaling the card thru and thru. The action looks wonderful. Your audience will certainly be surprised.

The precision made deck and pencil do all the work. You will love this one. Complete with video instructions.
