
Bicycle Vintage Easter by Collectable - Pokerdeck

Easter...the pastels; pink, blue, yellow, green, purple... the grass turned into a colorful sea of treat-filled plastic eggs. We wore our special Easter outfits, suits for the boys, bonnets and Mary Jane shoes for the girls and anticipated the gifts we would find in our Easter basket! Marshmallow Peeps, chocolate bunnies, stuffed animals, springtime outdoor toys, and sometimes cash!

But, if you were very small, mom and dad would take you to see the Easter bunny, a giant, humanoid rodent with great big teeth! You would be placed on his lap like a sacrificial offering. What kind of voodoo is this? A large plush animal that talked?? Take me off of him now!

Vintage Easter is the final deck in the nostalgic 4 deck set of holiday remembrance of the past. Playing with these decks can unlock more memories and instigate fun conversation in any group setting.
