
DOUBLE DEVIL by Lee Alex

LEE ALEX PRESENTS... "**DOUBLE DEVIL**" - NOT ONE BUT TWO POCKETS!

NEUTRAL HEXAGONAL DESIGN IN GRAYSCALE

Following feedback from customers who enjoyed the feature of TWO pockets in our "Christmas Bandana 2022", we have decided to release a new model of TWO pocket devil's pocket squares.

The pocket square measures approximately 15 x 15 inches (38 cm x 38 cm) and features not one, but TWO 'NO SNAG' POCKETS making switches, transformations and forcing easier than ever.

The secret pockets contained within the **DOUBLE DEVIL** allow you to exchange items at ease. The pocket square can be shown on both sides to contain nothing and then folded up into a bag. One item placed within the folds of the bag can easily transform to another item previously hidden in the **SECOND** pocket. After the transformation the pocket square can once again be shown to contain nothing!

With TWO pockets you are able to easily force TWO items to the same or different spectators!

The **DOUBLE DEVIL** can also be used to produce or vanish items, and can be shown **EMPTY** in between.
