
Van Gogh Self-Portrait (Borderless) - Pokerdeck

Classic Theme

Van Gogh painted countless self-portraits throughout his life, each depicting various emotions, from sorrowful to manic, making each one a classic in the art world.

The primary visual inspiration on the deck's box originates from his pointillism self-portrait completed in 1887.

The deck design incorporates numerous details from Van Gogh's works into its waistline, pips, and other intricate elements.

Full-Color Card Back

The card back is vibrant and full-color, ensuring the integrity of the imagery during fan and spread actions, resembling a dazzling starry sky unfolding in your hands.

The visual inspiration is drawn from Van Gogh's most famous work, "Starry Night," with its subtly shifting layers of colorful composition, appearing almost dynamic.

The secondary creation retains the original's dynamic brushstrokes and stunning color schemes. Details like the dark corners, central vortex, and symmetrical nebulae make it a perfect deck for cardistry, delivering the stunning effect players desire.

Limited Edition

The new **Self-portrait** deck is printed by USPCC, guaranteeing exceptional tactile feel and quality in addition to its artistic appeal.

Limited to 1000 decks, each comes with a unique numbered seal, making it highly recommended for both cardistry and collecting.
