Abstract Playing Cards by Ruben Albrecht

Abstract Playing Cards that are guaranteed to stand out and amaze family, friends or guests!

This deck is guaranteed one you haven't seen before. The special cards appear as abstract geometrical versions of themselves. The Joker, King, Back, Queen, and Jack have a totally new look. In fact, they use only the 4 primary shapes: rectangles, squares, circles, and triangles. The traditional black suits are substituted for a blue hue, complementing the design of the deck. The deck is suitable for any table game or magic trick, and therefore is the perfect all-round deck.
