## **Apocalypse Bicycle Wooden Box Set by TCC - Pokerdeck**

The Karnival series, created by designer British Sam Hayles, has long been known as one of the most popular and representative Bicycle limited edition custom decks. Including voodoo playing cards, Bicycle knights playing cards, it is an essential collector items for playing card collectors.

It's a great honor to cooperate with Sam Hayles to bring a new deck for you. We cooperated with him to create the Dead Soul project, which continues the design of the Karnival series style, popular with cardist, magicians, and playing card collectors. More than 20000 decks have been sold.

After careful planning for two years, we are still in the style of the Karnival series to create the latest works full of dark style! A total of three decks and three coins are sold in a wooden collector's box.
