## Pixel Kingdom (Red Edition) - Pokerdeck

The **Pixel Kingdom Playing Cards** - Meticulously handcrafted, pixel by pixel and expertly designed by Artur Fast. Made for collectors, dreamers, retro game fans and card enthusiasts just like you!

You have probably already seen 8-bit playing cards by now, but we want to bring pixel playing cards into a new era!

**Pixel Kingdom** is inspired by 16-bit graphics in a modernized way.

Just as **Pixel Kingdom** is a romantic representation of the Middle Ages, so is the 16-bit pixel art. It is meant to represent how players remember classic games, not how they actually looked.
