
ACE FULTON'S PHOENIX CASINO PLAYING CARDS TEXAS TEA

Fulton's Phoenix Texas Tea edition

In this long awaited follow up to Ace Fulton's Casino, Brad Fulton has once again worked with the legendary Daniel Phillips to reinvigorate the casino card genre - one they brought to life in the world of custom playing cards a decade ago.

Phoenix is a borderless casino back inspired by the distinctive aesthetic of the American Southwest. Housed in a tuck completely letter-pressed by Clove Street Press. This tuck is printed on out-of-print, recycled wheat paper that will surely get you going.

"If you can't cool down in here, you must be a Sun Devil."
