
ALPHANUMERIC DECK BLUE by Juan Pablo

ALPHANUMERIC DECK is a deck designed especially for mentalism magic.

This deck will allow you to perform three very powerful mentalism effects that you can present separately or if you prefer you can combine the three effects to create a very powerful routine. The first of the three mentalism effects is the most incredible version of the famous A.C.A.A.N trick in the most direct and easy way and without the need for technique, neither do you need memorized deck and you don't need to do any mathematical calculations.

A spectator names the card he is thinking of and also says a number between 1 and 52 and the magician takes the cards out of the case and counts up to the indicated number and there, incredibly, will be the card thought by the spectator!.

In the second effect, a spectator mentally chooses a card from the deck and also says a number.

The magician leaves the deck in the hands of the spectator and asks him to say the name of the card he is thinking of for the first time and to say the number he is thinking of chose, now the magician asks the spectator to count on the table as many cards as the number he chose and now comes the grand finale... the magician asks the spectator to spell the card he is thinking of from there, passing a letter for each letter on the table and when you reach the end of the spelling you will magically find the letter that the spectator was thinking of!.

In the third effect the magician calls out a number as a prediction now the spectator mentally chooses a card from the deck and has the deck in his hands now, the magician asks the spectator to count the number of cards on the table that the magician said as a prediction and when he finishes counting the cards on the table he says for the first time what is the name of the card he is thinking of, now the magician asks the spectator to spell the name of the card from there chosen, passing cards one by one for each letter and incredibly at the end of the spelling you will find that the chosen letter will be there!

ALPHANUMERIC DECK includes those three incredible effects and you can perform many more mentalism effects using this simple and original system using your imagination.
