
DECIPHER MANILA by Manoj Kaushal

Decipher is the most powerful, easiest-to-master peek envelope in mentalism.

Decipher anything that a spectator writes or draws!

Hand a business card to your spectator to write or draw anything they want. They place the business card inside the envelope you are holding. You close the flap, show both sides of the envelope, lay it on the table and now, you are loaded with the secret information.

Decipher takes all of the limitations of its competitor, and checks them off in bold. With this new design:

- You can show both sides of the envelope
- No reset
- Large writing area writing area gives room for bigger messages
- Most importantly, now the moment of peek makes total sense.
