
DKNG (Purple Wheel) by Art of Play - Pokerdeck

Originally released in 2015, LA design studio DKNG's "Wheel" playing cards have become one of the most popular deck designs in our shop. With a half dozen color variations, the palette of options spans the spectrum, quite literally, thanks to the release of holographic Rainbow Wheels last year.

Following previous colorways in Red, Blue, Green, Black, and Yellow, we are pleased to present one of our most highly requested colors, **Purple**. Whether you're new to DKNG playing cards or expanding your chromatic collection toward the ultraviolet spectrum, you're sure to find this shade of purple both regal and mysterious.

The rich hue is suffused throughout the design, from the letter-pressed tuck box, to the sleek, modern back design, to the tiniest pips on the faces of the cards.
