
Cheek to Cheek Plus BLUE by Rich Hill

Sometimes called the Triumph Deck, Cheek to Cheek is a variation of Deland's 1914 routine "Inverto". The deck is mechanical and easy to use!

Effect: A card is selected and returned to the deck. Then you riffle shuffle the deck half face down, half face up. When you ribbon spread the cards, the chosen card is the only face up card in the face down deck!

Cheek to Cheek Plus solves the ever-present "reset issue", so you will love this deck! Reset the cards in seconds!
