
Shot Glass Matrix by Patricio, Bond Lee & MS Magic

Shot Glass Matrix created by Patricio Teran.

A modernized classic of magic.

A Matrix accomplished with shot glasses instead of coins.

The magician displays 4 shot glasses and pours drinks in them. Then he brings out 4 jumbo cards to cover the 4 shot glasses. The magician then snaps his fingers and the transposition begins like magic. At the end all 4 shot glasses are transposed and they are handed out to members of the audience to share a toast.

If you are looking for something different, this is the magic for you.
