## **FUSE IT by Victor Sanz**

Victor Sanz brings you **FUSE IT** his new creation, a pocket's miracle using something so innocent as a little Post-it pad.

Imagine this, you sign a Post-it, ask to the spectator to peel it off from the pad and exam it, then you stick this Post-it outjog into the next one and the spectator signs this second Post-it... When you peel the spectator's Post-it and you have yours stucked on his, looks like is one single large post-it but in reality are two, the spectators can see that this is true. Now, without palming anything, with no sneaky moves or weird actions and with both signatures in full view the hole time, you just rub the gap between both post-its and smoothly there are fuse together in one large single piece, with both signatures on it!

Immediately and with your hands totally empty you give this impossible object to your spectator to keep as a souvenir. Nothing to ditch or steal is that clean.

**FUSE IT** is simple, direct, strong and easy to perform, an unforgettable souvenir that will lives in your spectators wallet for a long time as an impossible memory.

But this is not the end, Victor will teach you not only how to perform this stunning effect but also 4 BONUS effects using the very same gimmick.
