## **Bicycle Battlestar - Pokerdeck**

Battlestar is set in an intergalactic universe. Mankind has reached the stars and is now facing other alien races in a battle to conquer other planets. The deck is heavily influenced by pop culture and gaming references such as Dune, Star Realms, Miner Wars 2081, Battlestar Galactica, Endless Space, Eve online, just to mention a few. Unique design, modern theme and vibrant colors that jump from the card and simulate a 3D glowing effect. Battlestar is definitely a great deck for collectors and players.
