
Odd Fellows (Cpt Spindel) by Stockholm 17 - Pokerdeck

A new character is joining the Odd Fellows family; Cpt Spindel Webber with his itsy bitsy concoction will make you glow under UV light.

This Odd Fellow features new court cards, new tuckbox, and 219 new tiny illustrations printed with invisible UV sensitive ink, reacting to UV light (works with 365nm wavelength UV light).

The cards are printed by Cartamundi on their B9 Slimline stock, and the tuckbox is printed by Boschiero & Newton with orange fluo foil on a gray paper stock. The foil reacts to any UV light.
