## Juggler Ambigram - Pokerdeck

After the great success of the previous versions of the Jugglers, Julio Ribera wanted to bring a deck expressly designed so that you can perform your favorite magic tricks or your best cardistry moves. With an elegant design and a saturated color on the faces that stands out above the rest. The finish is exceptional since they are printed in the USPCC, which ensures a pleasant and perfect touch for your hands.

The name of this beautiful deck is given because its design is an ambigram. Ambigrams are words or phrases written or drawn in such a way that they admit at least two different readings, in this way you will be able to see that the word Juggler can be read in both directions, which gives the deck a visually pleasing symmetry.

- Limited edition of 2000 decks.
- Produced by the USPCC in the USA.
- Air-cushioned finish.
- Premium crushed paper stock.
- Premium matte box with embossing and black foil.
