
Twelve Imperial Symbols (Monochrome) by KING STAR - Pokerdeck

Twelve Imperial Symbols deck is different from the past: in the design, it can be clearly seen that the pattern is simple yet elegant. It not only highlights the design of Chinese style, but also highlights the theme of auspiciousness and beauty. The back of the card has a blank circular pattern, and it is bright, like a radiant sun, surrounded by clouds, like the water in the mountains, clear and clean. It shone into people's hearts at once.

The display of the card back is not only smooth but also easy to show the flower cutting action. The side trimming adopts the rough trimming commonly used by KSPCC, which can be greatly satisfied in experience.

Printed by KSPC.
