"Finally, a quality version of this tool, with well thought out instructions, and some clever new ideas. I am proud to own one."

- **Garrett Thomas**

For years Patrick has been world-renowned not only for his incredible work on card magic but also for what he's able to do with a finger-ring. Patrick first released Reflex in 2013 and blew the top off on what could be done using a ring. We are pleased to finally release Patrick's most well-guarded secret - **The Halo Project**.

This is the most visual and practical linking ring routine on the market. Here you will learn how to pass a ring through your fingers one by one or all at once, and that's just the start! Then comes the reputation maker, borrow a ring from your spectator, and with such beautiful precision, you link their ring onto yours! And after unlinking the rings, your spectator can immediately take them back for inspection. **The Halo Project** comes with everything you need to perform this visual miracle.

Sizing:

As the ring size may not be accurate for the US standard size
