## **WAND TO SUNFLOWER LARGE by Alan Wong**

A large version of the *Appearing Flower Wand* trick with flowers that look more like real sunflowers than the common bright colored feather flower magic props, adding class to a classic trick that everyone can enjoy performing. They are beautiful and different.

The wand is 30cm long, the flowers are 26cm tall and there are 5 handcrafted feather sunflowers in the production.

Go for the quality and be an inspiration.

*"Keep your face to the sunshine and you cannot see the shadows. It's what the sunflowers do."*

- **Helen Keller**
