ORIGINS

Gonzalo Albinana has been thinking, presenting and developing this effect thru the last, maybe fifteen years? Seven years ago, he started to show it to different magicians, and received the Geni D'Or Award for Creativity for it. Later, in 2019, he competed in the National Congress of Spain and won the Parlor Magic Trophy. Now, he is ready to share it with the magic community to see what things other people can make out of it.

Inspired by the work of Al Bach, Alexander de Cova and a lot of old masters and magicians of the past, **The Silk** is the development of the kind of magic that Gonzalo prefers. A clear plot, simple to understand, beautiful and amazing to watch, with a lot of room for the performer to develop his material and character.

The idea started one day in which a kid, in the middle of a silk vanishing sequence, starting to shot out something about a plastic finger? So Gonzalo started to think. After a lot of trials and errors, different effects, solutions and prototypes, the combination of several ideas, like the Arrow and Ribbon thru Body by Chung Ling Soo, **The Silk** thru the spots card of Alexander de Cova, and, different other approaches mentioned on the tutorial, **The Silk**, slowly thru the years, came to life, and became the opening of almost each one of his shows.
