
Stripper Bicycle Masquerade - Pokerdeck

Welcome to the world of the Masquerade!

Another original Bicycle deck production with our longtime artistic collaborator Juniardi Satyanagara! This version can be used for magic tricks and cartomancy!

Masquerade: decadence, deception, seduction. Four secret societies meet after centuries, in a false peace. Stakes: high. Only jokers seem to grasp this.

This is a modified version of the Masquerade deck.

A stripper deck is a deck that has been specially cut to be slightly tapered off on one side which allows you to perform various magic tricks. Instructions are not included but various resources can easily be found online.
