*"This is a GREAT book! Hoffman presents his ideas very clearly and concisely, his English is excellent. The quality of ideas is also excellent he offers eight complete performance pieces that are rock solid, strong and practical. His style is non-conventional he's certainly NOT a Derren clone and offers insights that are not often explored elsewhere. It would be fair to say that his approach to mentalism is blended with an esoteric style of presentation. He certainly creates a strong sense of mystery in his routines. My favourite routine of his is a combination of a séance with Q&A, this is an extremely emotive, powerful and mysterious piece of theatre. Not everyone could pull it off but I can imagine how he must absolutely slay audiences with it. BUT this book is not just about teaching some great routines it also has eight essays on his views on performance mentalism. These will help you to develop your own unique brand of performance. I highly recommend this book, it has great routines, wonderful presentations and has a refreshing approach...what more could you ask for!"*

*"I always like to encourage new authors in the field of mentalism, and Radek is one of them. In this book you can perceive the love he has for our art, in fact he has given a nice twist to well known methods that I think are worth to read. His Oracle Act is also well structured and is my favourite piece in the book. I wish you all the best with this release and keep creating!"*

*"I'm not a big fan of mentalism but this book is amazing! The material is pure and fresh. I like it because is easy to understand and suitable to all class from beginner to advance. Radek really mastered every single routine in this book. This is not only for mentalists but also for magicians. Since most of it is well known, but Radek study the method to make it more logic, for me that is important for someone Who is looking for a real gig. My favourite trick is his new version of legendary ACAAN. So clean and powerful!"*
