
Valhalla Viking Emerald (Standard) - Pokerdeck

VALHALLA VIKINGS PLAYING CARDS PRINTED BY USPCC AND GAMBLERS WAREHOUSE

The story of the **Viking Warriors** is a story of strong and reckless men and women, eager to explore and conquer new territories. Those who died did so in the hope of being chosen by the God Odin and led by the Valkyries to **Valhalla**, where they would join many other dead heroes to prepare for Ragnarok, the great battle at the end of the world.

GAMBLER'S WAREHOUSE is proud to present the latest creation by **SHAPESHIFTERS: VALHALLA VIKINGS**, a deck designed with attention to details, modern elegance and a deep respect for traditional playing cards.

The **back design** decorated with colored symbols, shows a symmetrical composition with four dragon heads, like those used on the front and back of Viking ships as a sign of strength, power and bravery. The dragons are also the main characters of Joker cards.

Oversized Aces, perfectly recognizable for games or magic effects, have been fully customized with detailed patterns & artwork.

Odin, Freya, Thor, Idun,... the great gods and goddesses of Norse mythology are elegantly illustrated in the **court cards**, with their weapons and prepared for battle with poses that respect the traditional playing cards structure.

The **numbered cards** follow a classical scheme and their names are originally written in the opposite corners to the indexes.
