
The Great Creator: Sky (Silver Foil) Edition by Riffle Shuffle - Pokerdeck

Ever wondered what was life like for the ones who came before us? The process of creation is slow, often taking thousands and thousands of years. The ancient Sumerians believed that it was the primeval sea that created heaven and earth, then came the moon and the sun. These cards embodied the two canvases that represent our universe - the land and the sky. We invite you to witness the process of the greatest creation by our God and Goddess - Father AN and Mother KI.
