
DUALITY Lite by Cobra Magic

Would you believe that you can embed a free-thought number into a pre-recorded video, while it is playing?

YES, with **Cobra Magic's Duality Lite** on your mobile phone you can do exactly that!

You show your spectators a video of yourself (or an assistant or an animated character) on your mobile screen, and ask a volunteer to think of any two digit number. Towards the end of your own video, the thought of number suddenly appears - embedded in the video. BOOOOOM!!!

- The one-time set-up (per video) takes only a few minutes
- It's always in your pocket, ready to perform
- The video is totally customizable. Apply your creativity and embellish it with your own style
- Easy to set up (only 3 taps) - even easier to perform

Play it BIG You can project the video on a large screen, to generate a great stage attraction.

With **DUALITY LITE** - You can start with the basics. There is an option to upgrade to the Pro version after purchase!

Generic Videos The app includes a few ready to perform videos prepared by leading magicians. Just learn the input method (1 minute) and you are ready to perform.

"It's a marvel, We have a magic trick on us which is the DREAM of magicians"
- **Mercurio thierry - Le Petit Magicien Review**

"Always in your pocket and you're ready to go anytime, anywhere, use your personal videos, Totally easy to set-up"
- **Magic Orthodoxy review**
