
Final Wooden Cups Mini by TCC

Wood has an innate attractiveness and is naturally visually appealing to the eye. It has a unique warmth and character that we love compared to the coldness of metal. When it is used in Cups and Balls, the natural grain of the wood makes each cup unique and gives it a nice tactile feel, making the cups very comfortable to handle.

However, high-quality wood Chop Cups / Cups and Balls can be extremely expensive on the market, and you most likely have to have them custom-made.

After more than 12 months of passion and sincerity, we have finally produced a set of excellent Wood Cups and Balls that we are very proud of.

The **Final Wood Combo Cup set** contains every configuration you need for the Cups & Balls - standard cups / solid cups and chop cups. We even made it in two sizes.

The **Final Wood Combo Cup set** includes one (1) gimmicked chop cup and two (2) regular straight cups.

There are also three (3) solid cups, which can expand your routine options and provide a different and baffling finale to your routine. Imagine the cups turned out to be a solid block of wood at the end as if everything was a dream!

Wood is naturally lighter than metal, but we have tried to keep the weight of each cup at a reasonable level that is comfortable to handle.

Each set comes with four (4) regular crochet balls and four (4) gimmicked chopped crochet balls for you to perform your favorite chop cup or combo cup routine right out of the box. There are also 4 additional crochet working balls in smaller size allowing for stacking of the cups in some basic ball penetration sequences. The ball set in smaller size comprises 1 gimmicked and 3 regular balls.

We also made a meticulously crafted custom PU storage case, which functions as a storage case and display case. The case neatly and safely stores all the balls and cups, and displays the uniqueness of your set of Wood Combo Cups and Balls Set more prominently.

The FINAL Wood Combo Cups also offers a mini cups version in the same configuration.

The Mini set includes one (1) mini wood chop cup, two (2) mini wood straight cups, three (3) wood solid cups, and a storage case.

Each set comes with four (4) regular rubber balls, four (4) gimmicked chopped rubber balls, and four (4) rubber balls in smaller size (one is chopped, the other three are regular).
