## CREATIVE WEEKLY VOL. 3 LIMITED by Julio Montoro

Introducing you, Montoro's exclusive project: **Creative Weekly Volume 3**.

In 2020, Julio Montoro decided to release a new monthly subscription in Spain to share his creations with all his Spanish followers. It was just a 1 year project, but it was a total success, with almost 900 Spanish magicians joining the subscription, learning 52 effects that Montoro specifically created for them.

Now, in 2022, Julio Montoro has decided to share this project with all his international friends in a really exclusive way.

Only 400 units will be printed every single month during 1 year. This means that only 400 magicians around the globe will only be able to know how Montoro's mind really works.

This is what you are going to get in Volume 3:

- **Cheapest peek device:** a peek device that will cost you 0 dollars to be constructed and will work the same as one of 50.
- **La escucha:** a really cool effect in which you will be able to guess the spectator card without touching anything, only by hearing the cards.
- **El equilibrio:** an impossible balance made with the items from your spectator. You are going to love the secret of this one.
- **Gravity:** an effect created by Julio Montoro back in 2010, where you will defy the laws of physics, creating an impossible gravity with your deck.

All these effects are now available at only \$19,95, that is less than \$5 a week.

Every single month, you're going to learn how to construct 4 awesome tricks, which comes in a tutorial inside a beautiful packaging, which is numbered and signed by Julio Montoro himself.

You will also include materials that you are going to need to construct all four week's effects.

Of course, you will not only learn gimmicked effects, but also at least one impromptu trick every month.

---

Be one of the 400 hundred magicians that will ever be able to learn all these effects and collect all 12 months.

Get creative weekly in your magic shop before it sells out!
