
Orbit Squintz - Pokerdeck

The Official Orbit X Squintz collab deck is here!

I have satisfied my inner child with this one. The Sandlot was a huge part of my childhood and now my adulthood. It's crazy where my love of cards takes me. Chauncey Leopardi (Squints) has his own Cannabis company, Foreign Genetics (and his own strain called "Squintz" which explains the combination of the Sandlot and the magical green herb seen throughout the deck. I love the combo!
