Luxury playing cards with a mesmerizing illusion design

Motion Illusion

A mesmerizing illusion design that will play tricks with your mind... Stare at the card for a while and watch the design come to life as it sways back and forth with subtle movement.

Depth Illusion

At a tilted angle, the cards appear to have a three dimensional depth illusion where the design rises above the surface of the card to take the form of waves.

Functional One-Way Design

The Waves design features a subtle one-way design. This creates a low-key flipbook animation effect when the cards are shuffled in reverse directions and riffled. Magicians can also take advantage of the one-way design to secretly locate and track cards of interest.
