## **WHAT WILL YOU LEARN**

### **HOW TO BECOME AN IDEA POWERHOUSE**

Let's face it, without a lot of ideas you will fail to come up with great ideas. This course will show you how to generate all the ideas you'll ever need.

### **TURN YOUR IDEA INTO A PROTOTYPE**

Having a great idea is only the starting point. It's what you do with that idea that makes the difference. This course will show you how to turn your ideas into real world prototypes easily and effectively.

### **3 MOST IMPORTANT TOOLS TO GET**

In the world of product development and prototype making, there are three essential tools all creators must own. These three tools will change your entire development process.

---

## **THREE PHASE PROTOTYPING**

You'll learn Adam's three-phase prototyping process to make your life so much easier. It's about keeping things clear, simple, and practical.

## **THE HOW & WHY OF 3D PRINTING**

If you're not currently using 3D printing in your development process. You should be and the best part is it's a lot easier than you may think.

## **MANUFACTURING YOUR PRODUCT**

You will learn everything you need to know about the manufacturing process of your product. This is 10 years of real-world experience easily laid out so you can get to work and get your first product to market quickly and effectively.

## **A LEARN BY DOING APPROACH!**

## **INSPIRATION & CREATIVITY**

Without creative thinking skills, product development can not happen.

## **THE DEVELOPMENT PROCESS**
