
COiN ARTIST Quarter Card Pack (6 coins per pack) by Mark Traversoni and iNFiNiTi

US QUARTER EDITION - CARDS PACK

Welcome to a joint collaboration between Mark Traversoni and Mark iNFiNiTi; this is where Phantom Artist meets Coin Magic.

We've printed an epic range of beautifully scorched impressions onto US Quarters.

No DIY, no burning around stencils, no black sooty fingers - your set of 6 coins come ready to perform with. They have been specially printed in such a way that they resemble scorch marks from heat (such as a lighter or flash paper), OR, creative ink stains (from sharpies) allowing you to perform in a variety of ways.

The black impressions do not come off easily unintentionally so you and your spectators can handle them all you want. For the sake of US Law, no coins have been permanently defaced.

You'll receive 6 different designs for you to astonish with, including:

QD, 7S, 8D, JC, 2S, 3D

Online Tutorials: A 1.5 hour masterclass in handling the coins, a range of presentations using lighters, flash paper and "sharpie" ink plus bonus ideas

PLEASE NOTE, US QUARTERS COME IN DIFFERENT DESIGNS AND THE COINS YOU RECEIVE WILL BE A RANDOM SELECTION

These coins make for some ultra-visual and emotive moments that your spectator can hold on to forever.

Or, perform a switch and use the same coin for multiple performances depending on the presentation you use.

*Dry Wipe Sharpie, Celebrity Cards, Coin Shell, Flash paper etc. all sold separately.
