
Mysterious Snake by Mago Flash

Introducing Mysterious Snake!

A new twist on a children's magic classic. It is nothing more and nothing less than a magical green snake inside a basket. A magician says that he will turn the snake blue. A magician passes the snake behind his back and it automatically turns blue. At that moment, the children in the audience shout desperately that they have realized the trap and that this is not magic.

Finally, the magician reveals that the snake really is magical and turns red from behind.

Very effective, excellent game of comic magic and children's magic.
