
TIME CHALLENGE by Hugo Valenzuela

A new classic of magic.

A card is chosen at random and signed by an assistant!

The magician asks the assistant to insert the card into the deck while the magician calculates the time it takes for it to disappear.

The assistant introduces the card and after a few seconds the magician's alarm clock starts to ring.

The magician tries to turn this off... but the signed card is ejected from inside the clock.

The effect has 3 modes to be performed... on a table and standing.

This includes instructional video.
